

We, as individual Councilors for the City of Harrisburg, wish to support our neighbors, "Friends of Gap Road", in their campaign to 'Say No' to the Muddy Creek Energy Park; a proposed 1,600-acre industrial solar facility proposed approximately 10-miles east of Harrisburg.

We agree with Friends of Gap Road's opposition to the aforementioned projects inappropriate use of high value exclusive farm use/native wetlands and it's negative impact(s) to:

- Loss of agricultural land
- Removal of wetlands
- Wildlife
- Water resources
- Increased wildfire danger
- Leaching toxic materials
- De-valuation of neighboring properties
- Serious economic impacts

With all our support:
